

ABA in PA PROVIDER DIRECTORY

WELCOME

Dear Pennsylvania,

It has been well-established that ABA is the cornerstone of treatment for individuals with autism and other developmental disabilities. In fact, ABA has substantially more scientific support than any other behavioral or educational intervention for children with ASD in reducing inappropriate behavior and in increasing communication, learning and appropriate social behavior. In the end, the overall goal of ABA is to help individuals become more independent, which will lead to happier and more satisfying lives.

My advocacy organization, ABA in PA Initiative, is dedicated to public education and was started to help families like yours obtain ABA therapy. In addition to the ABA in PA Provider Directory (hereby referred to as 'The Directory'), you can use the website (abainpa.com) to learn information about ABA or to follow us for information sent out regularly via our Facebook and Twitter links. For example, for families who don't think they are getting what they need or think ABA "isn't working" there is a document on the website titled "How Would I Know My Child Was Getting ABA" to help families better evaluate the services they are receiving.

ABA can be obtained from either private agencies or public agencies (now referred to as Intensive Behavioral Health Services or IBHS); previously known as Behavioral Health Rehabilitation Services (BHRS)/Wraparound. Please note a growing number of private agencies are now accepting Medical Assistance (MA) as a means of payment so closely monitor The Directory for updates. I have the team update The Directory every 2 to 3 times per year so please check back often!

It is known for ABA to be implemented properly, clinicians with appropriate education, supervision, and credentialing are needed. Without such clinicians, it will be impossible for your child to obtain the help he/she truly needs. As a result, always make sure the clinicians working with your child have one the following credentials - Board Certified Behavior Analyst (BCBA), Board Certified Assistant Behavior Analyst (BCaBA), or Registered Behavior Technician (RBT)/Behavior Technician (BT).

Finally, an unfortunate reality in Pennsylvania is the availability of ABA services is outpaced by the demand for ABA services. This fact makes the process of securing ABA that much more difficult. If you find yourself having trouble securing ABA, the following are some suggestions on how to address this issue or make a complaint.

- 1) Contact your insurance provider and tell them you have not been able to find an ABA provider (BCBA, BCaBA or RBT/BT) and that you need their help. See what they recommend. If necessary, ask to go “out-of-network” to get your child ABA services faster if “in-network” options are not available.
 - Your insurance provider could be a commercial/private company (Aetna, Cigna, Highmark, TRICARE, etc.) or Medical Assistance (MA). If Medical Assistance (MA) be sure to contact your child’s care manager at the Managed Care Organization (MCO). The MCO’s in Pennsylvania include the following: PerformCare, Community Care Behavioral Health (CCBH), Community Behavioral Health (CBH), Magellan Behavioral Health (MBH), or Beacon Health Options (BHO)/Value Behavioral Health (VBH).
- 2) At the same time, contact the Department of Human Services (DHS) if/when difficulties finding ABA providers/services arise. Please note, DHS changed the email address last year to RA-PWIBH@pa.gov (it was aba@pa.gov). I just wanted to remind you of this change.
- 3) When sending the message to DHS, continue to copy Jeni Hergenreder at Disability Rights PA (jhergenreder@disabilityrightspa.org). Disability Rights PA can follow your case to help make sure your child gets the services he or she needs.

Thank you for taking the time to review The Directory!

Cheryl Tierney-Aves, MD, MPH
Behavior and Developmental Pediatrics
President, ABA in PA Initiative

UPDATES FOR THE EASTERN EDITION 2022

Greetings to everyone who is either returning to The Directory or experiencing The Directory for the first time. We continue to work diligently to keep The Directory as updated as possible and are pleased to present the Easter 2022 Edition. This update has a number of additions and changes so please look to the summary below for more information.

- We are so happy to report there are **11 additions** to The Directory (highlighted in green) for this update. There are 7 new agencies in Table #1 (ABA) and 4 new agencies in Table #2 (Social Skills). The new agencies in Table #1 are ABIT Consulting Group, Achievement Partners, The Children's Universal Behavior Services, Impact Behavior Therapy, The Language and Behavior Center, Realistic Behavior and Therapeutic Services, and Siva. The 4 new agencies in Table #2 are Achievement Partners, Devereaux Advanced Behavior Health, Impact Behavior Therapy, and Realistic Behavior and Therapeutic Services.
- There are also edits/updates (highlighted in yellow) to contact information, provider spotlight information, counties served, and/or payment options accepted for 10 of our existing agencies. These agencies are ABA Consultants, Alliance Health Wraparound, Behavior by Design, Beyond Autism Services, Devereaux Advanced Behavior Health, Garner Behavior Services, Helping Hands Family, Paragon Behavioral Health Services, Potential Inc. and Traina Behavioral Consulting.
- There are no removals from The Directory for this update.
- Licensure is pending for 3 agencies – Beyond Autism Services, Keppley Behavior Consulting and Strident Healthcare

A NOTE TO OUR AGENCIES

Please take the time to review the information for your agency. We want to make sure everything we have for you is accurate and current.

If additions or alterations to information need to be made in The Directory, please use this form: <https://forms.gle/AZxB3reSnWsnQk599>

If you are not listed as an agency in The Directory and wish to be added, please use this form: <https://forms.gle/Vhuvn3Gd39FHBpeUA>

Thank you so much for your continued service to our communities and the children and families in Pennsylvania.

ITEMS REGARDING THE DIRECTORY

- Please understand Tables #1 and #2 are not exhaustive lists of providers. We welcome feedback via Facebook or our website if you are aware of additional agencies delivering quality ABA programming in Pennsylvania.
- We are looking for feedback on your experience with the ABA providers. Remember, quality ABA programs consist of a variety of components including 1) BCBAs to oversee your child's care utilizing an evidence-based treatment programs (such as Verbal Behavior, ESDM, AIM, PEAK, etc.) and 2) data collection which should be taken and reviewed with you ROUTINELY. If you are not experiencing these components please take the time to report your concerns to us via the "Contact Us" form found on the www.abainpa.com website. To complete the form, simply follow the instructions listed under the "ABA THERAPY IN PA" tab (<http://abainpa.com/call-to-action-how-to-get-aba-therapy-in-pennsylvania>)
- Free legal support for you and your child may be available through Disability Rights PA. You can either access their website (<https://disabilityrightspa.org/>) or can contact Jeni Hergenreder directly via email (jhergenreder@disabilityrightspa.org). Her team can help assist you free of charge as well.
- A quick way to complete a search within The Directory is to use the COMMAND F or CTRL F option (depending on the make of your computer). Let's use the example of searching for a particular county.
 - Press the COMMAND F or CTRL F keys at the same time (some computers have the COMMAND key while others have the CTRL key). This will bring up a window.
 - Type in the name of the county you want to search and then hit ENTER. Once you hit ENTER a search of the entire document will be completed and the name of the county you typed will be highlighted each time it is found.
 - Scroll through all of the highlights to find the name of ABA agencies or social skills programs in your county. This is a much more efficient way to search than looking through The Directory page-by-page.

Thank you so much again for supporting The Directory and ABA in PA Initiative! Stay safe and be well everyone! - Cheryl, Todd, Rea, Megha, Lucy and Lindsay

We are dedicated to developing new and innovative technologies and proud to share these advancements with the world.</p> <p>CORE VALUES: Our commitment to delivering quality/evidence-based ABA treatment is strategically in line with our values.</p> <p>EXPERTISE: Our practitioners embrace a "lifelong learner" approach to remain up to date with research and best practices. We support this professional environment through training and supervision. Innovation is at the center of our organization. We identify problems and search for solutions that improve treatment outcomes for our families. Our Research and Quality Improvement team works closely with our clinical team to identify and implement evidence-based strategies. This approach results in an evolving and enriched culture designed to improve lives. Ethical behavior is essential to protect all involved with treatment. Ethical dilemmas can come in many forms and each dilemma requires thoughtful consideration. The BACB® Professional and Ethical Compliance Code for Behavior Analysts guides our decision making when ethical dilemmas present themselves.</p> <table><tr><td>Home Based (Y/N)</td><td>Y</td></tr><tr><td>Center/Clinic Based (Y/N)</td><td>Y</td></tr><tr><td>Telehealth/Telemedicine/Video Options (Y/N)</td><td>Y</td></tr></table>	Home Based (Y/N)	Y	Center/Clinic Based (Y/N)	Y	Telehealth/Telemedicine/Video Options (Y/N)	Y	<p>Bucks, Chester, Cumberland, Dauphin, Delaware, Lancaster, Lebanon, Montgomery, Perry and Philadelphia</p>	<p>Medical Assistance (MA): Community Care Behavioral Health (CCBH), PerformCare, Community Behavioral Health (CBH) and Magellan Behavioral Health (MBH)</p> <p>Commercial/Private Insurance: Personal Choice, KeystoneHPE, TRICARE, United, Cigna, Aetna, Horizon, Independence Blue Cross, Amerihealth and Quest</p>

We are accredited by the Behavioral Health Center of Excellence (BHCOE), which develops and measures standards for autism and ABA service providers. We take pride in our decade of history in developing and implementing effective, high-quality ABA therapy programs. We draw on this expertise, while also relying on the ever growing body of research surrounding effective autism treatment. Before we build a program for a child, we first meet with the child, and the family to better understand their individual needs. From there we design a personalized plan to help them build the skills that they will need. <table><tr><td>Home Based (Y/N)</td><td>Y</td></tr><tr><td>Center/Clinic Based (Y/N)</td><td>N</td></tr><tr><td>Telehealth/Telemedicine/Video Options (Y/N)</td><td>N</td></tr></table>	Home Based (Y/N)	Y	Center/Clinic Based (Y/N)	N	Telehealth/Telemedicine/Video Options (Y/N)	N	Bucks, Delaware, Montgomery and Philadelphia	Medical Assistance (MA): Community Behavioral Health (CBH) and Magellan Health Choices Commercial/Private Insurance: Beacon Health Options, Cigna, Humana, Independence Blue Cross Blue Shield (Keystone East Private), Magellan of PA, Optum-United HealthCare, Aetna (GEHA) and Highmark

Keystone Behavior Services believes that therapy should be delivered in a comprehensive manner in which each therapist on the team brings their own specialization to your child's program. Speech and language, occupational, and physical therapists will all work together with a BCBA to develop and deliver a program utilizing the principles of ABA and Verbal Behavior. Under the direction of the lead therapists, behavior technicians will carry the therapies over into the natural environment where our clients need it most. <table><tr><td>Home Based (Y/N)</td><td>Y</td></tr><tr><td>Center/Clinic Based (Y/N)</td><td>N</td></tr></table>	Home Based (Y/N)	Y	Center/Clinic Based (Y/N)	N	Columbia, Lackawanna, Luzerne, Monroe, Montour, Pike, Snyder, Union, Wayne and Wyoming	Medical Assistance (MA) Commercial/Private Insurance: Highmark BCBS, Cigna, Aetna, Geisinger, Optum and United Healthcare Self-Pay options

Learning should be fun! Learning does not have to feel like work in order for it to be functional and beneficial. Every child is unique and their programming should be individualized to meet their needs. TBC works with individuals of all ages and diagnoses as well as those without a diagnosis. Skills must be functional to the child as well as their family. Teaching in the child’s natural environment promotes generalization for the child and the family. TBC encourages a team approach to therapy. We recognize that each family is different. We work together to increase the quality of life for the child and their family.</p> <table><tr><td>Home Based (Y/N)</td><td>Y</td></tr><tr><td>Center/Clinic Based (Y/N)</td><td>Y</td></tr><tr><td>Telehealth/Telemedicine/Video Options (Y/N)</td><td>Y</td></tr><tr><td>Works with other ABA agencies?</td><td>Y</td></tr><tr><td>Works with BHRS collaboratively</td><td>Y</td></tr></table>	Home Based (Y/N)	Y	Center/Clinic Based (Y/N)	Y	Telehealth/Telemedicine/Video Options (Y/N)	Y	Works with other ABA agencies? Services starting the first week of January 2022. The approach used in our Social Skills programs differs based on the age group and specific needs of a given group. For conversational teenagers and tweens (high & middle school aged clients), our clinicians use either the Skills Streaming curriculum as a base with additional, individualized ABA interventions per client to support their participation, or for clients who have anxiety and specific stress indicators that interfere with their ability to socialize appropriately, our clinicians provide Stress Management & Coping Skills oriented Social Skills Training originally based on the AIM and other ABA-ACT-Mindfulness curricula, as well as, additional, individualized ABA-based interventions per client. For conversational 6 to 10/11 year olds (i.e.: elementary aged students), our clinicians use the Skills Streaming curriculum for our Social Skills Groups. For conversational 4-6 year olds, (preschool), our clinicians base individual goals on assessed needs using the most relevant assessment tool for each client, and run group activities in which they can each be instructed and practice these skills. For younger clients and non-conversational clients, early social skills such as parallel play, manding, paired conditioning of peers, exchanging	Cumberland, Dauphin, Lancaster and York Accepting clients from Berks and Chester counties for services in our Lancaster Center	Medical Assistance (MA): All PerformCare and Community Care Behavioral Health (CCBH) managed plans; CHIP. Glossary of Acronyms

TERM	DESCRIPTION
ABA	ABA stands for <u>Applied Behavioral Analysis</u> . Applied Behavior Analysis (ABA) methodology involves the application of basic behavioral practices (positive reinforcement, repetition, prompting, etc.) to facilitate the development of language, positive skills, and social behavior as well as to help reduce everyday social problems and serious behavior disorders.
ABLLS (and ABLLS-R)	ABLLS stands for <u>Assessment of Basic Language and Learning</u> (and ABLLS-R stands of <u>Assessment of Basic Language and Learning-Revised</u>)
ACT	ACT stands for <u>Acceptance and Commitment Therapy</u> . ACT is a form of counseling and a branch of clinical behavior analysis. It is an empirically-based intervention that uses acceptance and mindfulness strategies mixed in different ways with commitment and behavior-change strategies to increase psychological flexibility.
ADLs	ADLs stand for <u>Activities of Daily Living</u> . ADLs are routine activities people perform daily/weekly including things such as eating, bathing, dressing, toileting, preparing meals, attending to laundry, completing chores, etc.
ADOS	ADOS stands for <u>Autism Diagnostic Observation Scale</u> . The ADOS is an instrument for diagnosing and assessing autism. The protocol consists of a series of structured and semi-structured tasks that involve social interaction between the examiner and the person under assessment.
AIM	AIM stands for <u>Accept, Identify, Move</u> . AIM introduces and blends together the concepts of Mindfulness, ACT, and ABA to promote adaptive and flexible behavior which leads to positive behavior change. AIM seeks to improve the lives of children with or without disabilities who struggle with social and emotional challenges.
ASD	ASD stands for <u>Autism Spectrum Disorder</u> . ASD is a group of complex neurodevelopmental disorders that can cause significant behavioral, communication and social challenges for an individual. People with ASD may behave, communicate, interact, and learn in ways that are different from most other people. The learning, problem-solving, and thinking abilities of people with ASD can range from gifted to severely challenged. Some people with ASD need a large array of services to help in their daily lives while others need much less.
AFLS	AFLS stands for <u>Assessment of Functional Living Skills</u> . AFLS is a criterion-referenced skills assessment tool, tracking system, and curriculum guide. AFLS is used for teaching children, adolescents, and adults with developmental disabilities the essential skills they need in order to achieve the most independent outcomes.
BACB	BACB stands for the <u>Behavior Analysis Certification Board</u> . BACB is an independent, nonprofit certification board started to establish standards for what constitutes being qualified to practice Applied Behavior Analysis (ABA) in addition to setting ethical and legal codes to which all BCBAs are bound. Begun in the early 1990s, this credential has quickly swept international boundaries and is now becoming the standard by which insurance companies determine eligibility for payment as an ABA service provider.
BCaBA	BCaBA stands for <u>Board Certified Assistant Behavior Analyst</u> . The BCaBA is an undergraduate-level certification in behavior analysis. Professionals who are certified at the BCaBA level may not practice independently, but must be supervised by someone certified at the BCBA/BCBA-D level. In addition, BCaBAs can supervise the work of Registered Behavior Technicians (RBTs), and others who implement behavior-analytic interventions.
BCBA	BCBA stands for <u>Board Certified Behavior Analyst</u> . The BCBA is a graduate-level certification in the field of behavior analysis. Professionals who are certified at the BCBA level are independent practitioners who provide behavior-analytic services. In addition, BCBAs supervise the work of Board Certified Assistant Behavior Analysts (BCaBAs), Registered Behavior Technicians (RBTs), and others who implement behavior-analytic interventions.
BCBA-D	BCBA-D stands for <u>Board Certified Behavior Analyst-Doctoral</u> . The BCBA-D is a designation for BCBAs with doctoral training in behavior analysis. It is not a separate credential and it does not grant any special privileges above or beyond the BCBA credential. Professionals who are credentialed at the BCBA-

	D level function in the same capacity as a BCBA (i.e., they are independent practitioners who provide behavior-analytic services). BCBA-Ds supervise the work of Board Certified Assistant Behavior Analysts, Registered Behavior Technicians, and others who provide behavior-analytic interventions.
BHMC (or MCO for short)	BHMC (or MCO for short) stands for <u>Behavioral Health Managed Care Organization</u> (or <u>Managed Care Organization</u> for short). A MCO is a health care provider or a group or organization of medical service providers who offers managed care health plans. It is a health organization that contracts with insurers or self-insured employers and finances and delivers health care using a specific provider network and specific services and products. By contracting with various types of MCOs to deliver Medicaid program health care services to their beneficiaries, states can reduce Medicaid program costs and better manage utilization of health services. Improvement in health plan performance, health care quality, and outcomes are key objectives of Medicaid managed care. There are 5 MCO's within the Commonwealth of Pennsylvania. Specific names and contact numbers are provided in a table on the following pages.
BHT	BHT stands for <u>Behavioral Health Technician</u> . BHTs work alongside other healthcare professionals to administer treatment plans and provide care to patients diagnosed with behavioral disorders. BHTs can work with children with autism; however, they work under less stringent standards of education and experience than, let's say, Registered Behavior Technician (RBT).
BIP	BIP stands for <u>Behavior Intervention Plan</u> . A BIP is simply a plan that is designed to reward and reinforce positive behaviors. BIPs look different in every instance because they are customized to a specific person and toward specific behaviors.
DTT	DTT stands for <u>Discrete Trial Training</u> . DTT is a technique used by practitioners of ABA that was developed by Ivar Lovaas. DTT is a practitioner-led, structured instructional procedure that breaks tasks down into simple subunits to shape new skills.
EI	EI stands for <u>Early Intervention</u> . EI is a term used to describe the services and supports that are available to infants, toddlers and preschool-age children with developmental delays and disabilities and their families. Services may include specialized instruction, speech/language therapy, physical therapy, occupational therapy, and other types of services based on the needs of the child and family. In Pennsylvania EI services are provided for children ages 0-5 and divided into 2 groups: ages 0 to 3 (infant/toddler) and ages 3 to 5 (preschool).
ESY	ESY stands for <u>Extended School Year</u> . ESY services are special education and related services provided to students with disabilities beyond the regular 180-day school year. ESY services are provided during breaks in the educational schedule to prevent this loss. There are seven factors the IEP team must consider to determine if a student is eligible for ESY services. No one factor by itself can be used to determine eligibility for ESY (all 7 factors must be considered by the IEP team), but please realize a child may be eligible by meeting just one of the criteria. ESY must be considered each year for every child with a disability at the IEP meeting.
FA	FA stands for <u>Functional Analysis</u> . FAs manipulate environmental conditions to evoke challenging behavior. This is done to demonstrate control over the behavior. If the professional (i.e. BCBA) can predictably create a condition that evokes the behavior, he/she identifies the function of the behavior within a reasonable degree of certainty. A FA must be completed by an experienced professional as it requires contriving conditions in specific ways in an attempt to elicit behavior.
FBA	FBA stands for <u>Functional Behavior Assessment</u> . A FBA collects a variety of data about an identified behavior to evaluate the conditions in the context within which it's already occurring. Professionals (i.e. CBAs) collect these data through both direct and indirect methods such as observation, interviews and data collected by collaterals. When a pattern emerges through the evaluation of these data, the professional forms a hypothesis about the function. Professionals must express clearly that their conclusions are a hypothesis and should not assume their conclusions are fact.
IBHS	IBHS stands for <u>Intensive Behavioral Health Services</u> . IBHS replaced Behavioral Health Rehabilitative Services (BHRS) as of January 17, 2020.
ISP or IFSP	ISP stands for <u>Individual Service Plans</u> and IFSP stands for <u>Individual Family Service Plans</u> . An ISP or IFSP is both a process and a document for children found eligible for EI services (ages 0-3). The IFSP is a written treatment plan that maps out the EI services your child will receive, as well as how and when these services will be administered. It details your child's current levels of functioning, specific needs and goals for treatment (referred to as

	outcomes). The IFSP takes a family-based approach to services, due to the central concept that supporting a child's family lends itself to supporting the child. As such, the IFSP is developed with input from the child's entire family, and it includes features that are designed to support the entire family.
LBS and BSL	LBS stands for <u>Licensed Behavior Specialist (LBS)</u> and BSL stands for <u>Behavior Specialist License (BSL)</u> . A LBS or a professional with a BSL must have a Master's Degree or higher or a Post-Master's Certificate in Behavioral Analysis; Special Education; Speech Therapy; Psychology (School, Clinical, Counseling or Developmental); Professional Counseling; Social Work; Occupational Therapy; or Nursing (the "named fields") or in a field related to a "named field." This person must demonstrate 90 hours of evidenced based coursework/training, must have 1 year of experiencing developing and implementing functional behavior assessments, and must have completed 1000 hours of clinical experience with individuals with behavioral challenges or individuals with an autism spectrum disorder.
LCSW	LCSW stands for <u>Licensed Clinical Social Worker</u> . The LCSW is a sub-sector within the field of Social Work. LCSW's work with clients in order to help deal with issues involving mental and emotional health. There are a wide variety of specializations on which the Licensed Clinical Social Worker can focus including specialties such as working with mental health issues, substance abuse, public health, school social work, medical social work, marriage counseling or children and family therapy.
MT	MT stands for <u>Mobile Therapist</u> . A MT provides individual and family psychotherapy in the home environment, provides insight into family dynamics, provides assistance in the development of adaptive skills in order for the client to take a more positive role in the family, and provides clinical progress notes and development of psychotherapy treatment plans. The MT is a master's level position with certification in a field such as Clinical Psychology, Counseling, Clinical Social Work, etc. Please note, not all MTs are BCBAs, but a BCBAs can be a MT. This is an important distinction to make. When securing ABA services for your child, the standard is for the MT to be a BCBA.
NET	NET stands for <u>Natural Environment Training</u> . NET is a term that is used for when skills are taught or generalized within the natural environment. For example, you might teach a student to receptively and expressively label colors at the table. Then, during NET, the student would get to practice the skill by labelling colors of crayons that you're using or asking for colors of Play-Doh found in the basket.
PBSP	PBSP stands for <u>Positive Behavior Support Plan</u> . A PBSP emphasizes positive behavior based on the unique characteristics of the individual. Each PBSP takes into account the unique characteristics and needs of each person, as well as the specific characteristics, strengths, and resources of each environment the individual will experience.
PEAK	PEAK stands for <u>Promoting the Emergence of Advanced Knowledge</u> . The PEAK: Relational Training System is a comprehensive approach to Applied Behavior Analysis (ABA) which embraces traditional verbal behavior accounts of basic language and incorporates contemporary behavior analytic strategies for promoting relational responding which are responsible for our ability understand and use language.
PRT	PRT stands for <u>Pivotal Response Training</u> . PRT is one of the most proven behavioral approaches for treating children with ASD. Drawn from ABA, PRT is a play-based method that targets improving "pivotal" development areas instead of individual behaviors. It's based on the idea that changes in pivotal responses would spark widespread progress in other developmental areas.
RBT (or BT for short)	RBT stands for <u>Registered Behavior Technician</u> . The RBT is a paraprofessional who practices under the close, ongoing supervision of a BCBA or BCaBA. The RBT is primarily responsible for the direct implementation of behavior-analytic services. The RBT does not design intervention or assessment plans. It is the responsibility of the RBT supervisor to determine which tasks an RBT may perform as a function of his or her training, experience, and competence. The BCBA supervising the RBT is responsible for the work performed by the RBT on the cases they are overseeing.
VB	VB stands for <u>verbal behavior</u> . Based in the principles of ABA, VB teaches communication by assessing and facilitating the development of language skills. At its core, VB motivates an individual to learn language by connecting words to their functions. Instead of focusing on words as mere labels, VB teaches individuals how to use language to make requests and communicate ideas. A person learns that words and/or language can help obtain desired objects or produce other meaningful results. VB focuses on teaching children to effectively use words and/or language in all types of situations.

VB-MAPP	VB-MAPP stands for <u>Verbal Behavior Milestones Assessment and Placement Program</u> . The VB-MAPP is a criterion-referenced assessment tool, curriculum guide, and skill tracking system that is designed for children with autism, and other individuals who demonstrate language delays. The VB-MAPP is based on B.F. Skinner's (1957) analysis of verbal behavior, established developmental milestones, and research from the field of behavior analysis.
